

I am a proud Head Start Alumni Parent! Both of my children attended Head Start programs. My youngest, who is now in the 7th grade, attended our 18th St. campus. I am so grateful to Head Start for the work they did with my children, giving them a foundation for the academic success they have achieved thus far in life. When my children were in Head Start, I knew they were receiving loving support and care. I was able to work and complete my graduate degree while my oldest was in school. I also attended parent meetings and received parent education as well. Head Start allowed me to become a better parent and provider for my children. I will forever love Head Start - the gold standard for early care and education!
